Fe de errores

En el artículo "Consenso sobre tratamiento del asma en pediatría", del Grupo de trabajo sobre Tratamiento del Asma Infantil, publicado en *An Pediatr (Barc)*. 2007;67(3):253-73, se han detectado los siguientes errores:

- Tabla 10 (p. 262): donde dice "GCI dosis medias + ARLT" debe decir "GCI dosis bajas + ARLT".
- Figura 3 (p. 262): en el paso 5, donde dice "GCI dosis medias + ARLT" debe decir "GCI dosis altas + ARLT".
- Figura 4 (p. 264): en el paso 4, donde dice "GCI dosis baja + ARLT" debe decir "GCI dosis media + ARLT"; en el paso 5 donde dice "GCI dosis medias" debe decir "GCI dosis altas"; en el paso 6, donde dice "Omalizumab" debe decir "Anticuerpos anti-IgE".
